# NAFFA FACILITATOR TRAINING HONOLULU, HAWAII

January 12-14, 2027

## FATHERHOOD IS SACRED/ MOTHERHOOD IS SACRED

This program strengthens families by empowering parents through core cultural principles. Rooted in the Native belief that parenthood is the most sacred responsibility, this course provides culturally relevant tools to improve family relationships, foster responsible parenting, enhance child safety, and reduce recidivism and substance abuse.

## TRANSFORMING TOMORROW'S YOUTH

This program helps Native youth navigate mental health, substance abuse, and suicide by reconnecting them with their heritage, self-worth, and purpose. Built on the principles of NAFFA's sacred family programs, this 15-session curriculum spans 3 days of lessons, activities, and a culture-based final project—equipping youth with cultural values and practical tools for a safe, successful future.

## WELLNESS MODALITY- RECOVERY PROGRAM

This program goes beyond simple abstinence, offering a whole-life approach to help individuals become self-reliant, honorable people. Delivered over 17 sessions, the curriculum builds courage and aligns the mind and heart for lasting change. It addresses four key areas of healing: spiritual, emotional, social, and physical wellness.

## WELLNESS MODALITY- RE-ENTRY PROGRAM

This program supports individuals transitioning from incarceration across four wellness areas: spiritual, emotional, social, and physical. Delivered in 17 sessions, the program covers healing and hope, courage, anger management, and family strengthening. It empowers participants—whether currently or previously incarcerated—to overcome challenges and achieve lasting personal growth with a forward-looking mindset.
