

Suicide Prevention©

Suicide Prevention© is a course that discusses the importance of hope and helps individuals recognize the beauty of life and living. Hopelessness is the reduction of hope and despair is the absence of hope, a state which affects our body, mind, and spirit. This course emphasizes strategies that help prevent suicide. Additionally, it identifies a range of factors and situations that can increase the risk of suicide. Furthermore, it provides ways to process the death of a loved one by better understanding ways of coping and healing from loss.
